

## उपपदतत्पुरुषः

## Governing Compounds

For each of the compounds given below:

- separate the two members of the compound (the *pūrvapadam* and the *uttarapadam*) with a line;
- use a dictionary to identify the meaning of each member, including the *verbal root* from which the second member has been formed;
- provide an analytic paraphrase (*vigrahavākyam*) of the entire compound and an English translation;
- **OPTIONAL**: look up the word (or just the final member) in a good Sanskrit–Sanskrit dictionary, like the *Vācaspatyam* (hosted at [Cologne](#) or the [Sanskrit Library](#), or available as StarDict files [here](#)), and note the *suffix* with which the final member has been formed.

समासः	विग्रहवाक्यम्	धातुः	प्रत्ययः
बलिभुक्	बलिं भुङ्क्ते	भुज्	क्विप्
<i>translation: Eating offerings (i.e., a crow)</i>
